## PROJECT EXPERIENCE

### Community Cookbook Web App — Java/SpringBoot App

- Built web app that allows users to search and contribute to a community cookbook
- Utilized knowledge of Java, using MySQL, to create CRUD capable application

## WORK EXPERIENCE

### HouseKeeper — Clean Like A Mother, St. Louis, MO

February 2017 - Present

- Independently operated a housecleaning business, where I managed a roster of up to 16 clients each month.
- Executed high standard of cleaning tasks per client requirements.
- Maintained stock of cleaning tools and supplies.

### Manager — The Old Spaghetti Factory, San Diego, CA

January 2014 - July 2016

- Managed department staff, up to 75 employees at a time.
- Oversaw daily restaurant operations, balancing sales and labor, ensuring excellent food quality and guest experience.
- Built employee schedules on a weekly basis.
- Engaged staff in all departments to participate in seasonal promotions for featured items.
- Created sales or production contests for staff in all departments.
- Overhauled and carried out bi weekly sales training, resulting in increased sales, check averages and guest compliments.
- Booked, staffed and oversaw large banquets for up to 200 guests.
- Coordinated large repairs and communicated ongoing maintenance projects with other managers.
- Survived three San Diego Comic Cons in a management role and contributed to the successful operations each year.

### Server/Bartender/Trainer/Restaurant Supervisor —

The Old Spaghetti Factory, San Diego, CA

May 2012 - December 2013

- Executed steps of service with courtesy, accuracy, and speed as both a server and bartender.
- Earned promotion to Server Trainer within four months of hire.
- Responsible for training new hires and communicating with management regarding their progress and skill.
- Served 5-12 tables, depending on shift, and ran service bar at lunch.
